Thank you for choosing Radar Tires. With proper care and maintenance, you will enjoy driving on your new Radar replacement tires for a long time.

We want you to be 100% satisfied with your Radar replacement passenger or light truck tires so they are backed by the RADAR PROTECT PROGRAM. The Program includes the following benefits:

- **Workmanship and Material Limited Warranty**
- **Treadwear Limited Warranty**
- **Road Hazard Warranty**
- **30-Day Satisfaction Guarantee**

WARRANTY ELIGIBILITY

Any new Radar passenger and light truck tire bearing the Radar brand name and DOT number that: i) is owned by the original purchaser ii) has remained mounted on the vehicle identified on the receipt of installation and; iii) is the correct size and load range for the vehicle according to the vehicle manufacturer's recommendations or according to the vehicle information placard, is eligible for warranty coverage, subject to the conditions and limitations set forth in this limited warranty. Products sold by unauthorized retailers are not eligible for warranty coverage from Radar.

This warranty applies to tires purchased after October 1, 2020. Tires purchased before October 1, 2020 are subject to the previous published warranty.

WARRANTY PERIOD

The period of warranty coverage for eligible tires extends until: i) the original usable tread wears down to 2/32nds of an inch (1.6 mm), as evidenced by the built-in treadwear indicators in the tread grooves or a tire tread depth gauge; or ii) five (5) years from the date of retail purchase (proof of tire purchase required); or iii) six (6) years from the date of manufacture as per the DOT number, whichever occurs first.

WORKMANSHIP AND MATERIAL LIMITED WARRANTY

All Radar brand tires are warranted against defects in workmanship and material. If, upon examination by an authorized Radar retailer, it is discovered that an eligible tire is unserviceable as a result of workmanship or material related conditions, that the warranty period for the tire has not expired [five (5) years from date of purchase or six (6) years from date of manufacture as per DOT number)], and that no EXCEPTIONS TO WARRANTY COVERAGE apply, the tire will be replaced at no charge (conditions apply) or at prorated cost (determined by reason of claim using mileage and/or tread depth) with an equivalent new Radar tire by an authorized Radar retailer. Eligibility for no charge replacement and details of prorated calculation can be found under section TIRE REPLACEMENT AND RELATED COSTS.

TREADWEAR LIMITED WARRANTY

Selected Radar tire ranges offer treadwear warranty, which provides the consumer coverage from premature treadwear. These eligible tire ranges must be purchased in North America and used in non-fleet, non-commercial service and submitted as a set of four (4), evenly worn tires. Replacement (on a pro rata basis) with an equivalent new Radar tire for treadwear warranty coverage will occur when an eligible evenly worn tire wears down to a tread depth of 2/32nds of an inch (1.6 mm)

at a mileage level less than what was warranted and no EXCEPTIONS TO THE WARRANTY COVERAGE apply. Tires which wear out evenly before delivering the guaranteed treadwear will be replaced on a pro rata basis only if the tires have been rotated and inspected by a participating Radar retailer on a regular basis (see OWNERS OBLIGATIONS). Vehicles that come OE with split fitments (different sizes) on the front and rear axles and have been fitted with Radar replacement tires are eligible for Radar limited treadwear warranty. However, because tire rotation is not possible with vehicles with split fitments(different size on front and rear axles), the mileage warranty on the rear axle tires will be half of the miles/kilometers of the standard mileage warranty for that particular tire range. Non-EV or non-EV Compatible tires used on EVs(Electric Vehicles) will be eligible for 80% of the standard treadwear mileage warranty for that particular range.

For the most updated list of eligible ranges please visit www.omni-united.com/radar-us/limited-warranty.

ROAD HAZARD WARRANTY

Selected Radar tire ranges offer a ROAD HAZARD WARRANTY to protect consumers against non-repairable damage caused by cut, snag, puncture, bruise or impact break. Typical road hazards are nails, glass, potholes and debris. The Road Hazard Warranty is offered to promote goodwill and is not a warranty that your tire will not fail or become unserviceable due to a Road Hazard. This warranty is a promise of replacement under the conditions specified below.

When an eligible tire has a road hazard condition during the first 2/32nds of an inch (1.6 mm) of treadwear or first 12 months from date of purchase, whichever comes first, the tire will be replaced with an equivalent* Radar brand tire free of charge. To be eligible, you need to present i) the tire(s), ii) proof of purchase (original invoice) showing the date of purchase and that a set of four (4) tires of the same brand and pattern were purchased and installed on the vehicle at the same time. (If the vehicle has a mix of different brands and patterns, the claim will be rejected). You are responsible for payment of all applicable taxes, demounting, shipping, mounting and balancing charges set forth under this Coverage. You are also responsible for payment of local tire disposal fees and any parts or service regardless of mileage or months of service. This includes payment for tire rotation, alignment, towing, road service and valve stems.

*An "equivalent" new Radar brand tire shall be either: i) the same range of tire; or ii) a tire of the same general construction and quality. The Limited Warranty covers tires of equal or lesser value. If owner accepts a higher priced tire, owner is responsible for covering any difference in price.

30-DAY SATISFACTION GUARANTEE

Selected Radar brand ranges are covered by the 30-Day Satisfaction Guarantee. If for any reason, other than an excluded condition listed under the EXCEPTIONS TO WARRANTY COVERAGE, if you are not satisfied with your new set of four (4) tires within 30 days from date of purchase or the first 2/32nds of an inch (1.6 mm) of treadwear, whichever comes first, you may exchange all or any one of them for a corresponding number of the same tires or for another set of a different type of Radar brand tires. To be eligible, you need to present

i) the tire(s), ii) proof of purchase (original invoice) showing the date of purchase and that a set of four (4) tires of the same brand and pattern were purchased and installed on the vehicle at the same time. (If the vehicle has a mix of different brands and patterns, the claim will be rejected). Winter tires must be replaced with another set of winter tires. Owner pays all applicable taxes, including cost of mounting and balancing. If you wish to exchange for another set of Radar brand tires which is a higher cost, you must pay the upgrade from the original purchase price, including shipping and all applicable taxes. This satisfaction guarantee only applies to the original owner of a new set of four (4) Radar brand passenger tires purchased and not to the tires provided under this guarantee.

For all warranty claims under this RADAR PROTECT PROGRAM the owner must provide the tire mileage at the time of installation of the tires. Under the Workmanship and Material Limited Warranty, Treadwear Limited Warranty and Road Hazard Warranty, owner must present a claim which includes the original, up-to-date Tire Mounting & Rotation Service Record showing that the tires were rotated at least every 5,000 to 6,000 miles (8,000-10,000 kilometers) or sooner if uneven treadwear begins to appear.

It is important to purchase our tires from authorized retailers only. Unauthorized importers or retailers may provide tires that have been already used or stored in improper conditions.

Please note that some sellers on Amazon.com, eBay.com, Craigslist or similar online markets may not be authorized retailers of Radar branded tires. When purchasing on these online markets, it is fully your responsibility as a customer to ensure that sellers are authorized by Radar Tires and Omni United.

When the original usable tread anywhere on a tire reaches a depth of 2/32nds of an inch (1.6 mm), as evidenced by the built-in treadwear indicators in the tread grooves or a tire tread depth gauge, the tire is fully worn out and should be removed from service.

In accordance with federal law, this warranty has been designated a "Limited Warranty." Nothing in this Limited Warranty is intended as a representation by Radar that tire failures cannot occur or a representation that you will receive the level of mileage warranted. Any tire, no matter how well manufactured, may fail in service or otherwise become unserviceable due to conditions beyond the control of the manufacturer.

ALL CLAIMS ARISING FROM HIS LIMITED WARRANTY OR THE MARKETING, SALE OR PERFORMANCE OF THE PURCHASED PRODUCT AGAINST RADAR AND ITS AGENTS, EMPLOYEES, RETAILERS, AFFILIATES, PARENT OR SISTER CORPORATIONS, RELATED CORPORATE ENTITIES, PREDECESSORS, SUCCESSORS OR ASSIGNS (HEREINAFTER COLLECTIVELY "RADAR") SHALL BE SUBJECT TO BINDING ARBITRATION. Therefore, you and Radar agree that all claims, disputes, and controversies between you and Radar arising out of or in connection with this limited warranty, or any other warranties, express or implied, including a failure of warranty, or any claims arising out of or in connection with the marketing, sale or performance of the purchased product, including but not limited to claims for consumer fraud or brought under any consumer protection statute, but excluding claims for personal injury or property damage, shall be finally resolved solely by arbitration upon election by either party, according to the formal dispute resolution procedures then in effect of the National Arbitration Forum, or if the National Arbitration Forum is no longer conducting such arbitrations, a successor organization thereto or such other private arbitration service as you and Radar shall mutually agree (the actual authority involved, the "Arbitral Body"). All arbitrations will be conducted as document hearings. Each party shall bear its own costs arising from and associated with the document hearing with the exception of the arbitrator's fee which will be borne by all parties in equal shares. If either party requests any procedures beyond a document hearing, the requesting party will be responsible for all fees, including filing and administrative fees, above and beyond the fees required for document hearings. The arbitrators will have no authority to award punitive or other damages not measured by the prevailing party's actual damages, except as may be required by statute.

To avoid property damage, personal injury or death

- Always have your tires mounted and demounted by specially trained technicians.
- Always mount your tires on approved rims that meet TRA standards.
- Always have your tires rotated and inspected regularly.
- Always follow rules and recommendations in your vehicle's owner's manual.
- Always mount studded tires in sets of four (4).
- Never simultaneously mount studded and non-studded tires on a vehicle.
- Never mount mixed tire brands, product ranges and different speed rated tires on a vehicle.
- Always use correct air pressure recommended by vehicle manufacturer/TRA.
- Always use recommended tire size by the vehicle manufacturer.
- Never inflate beyond 40 PSI pressure to seat the beads.

All tires experience age degradation, a condition where the physical and chemical properties of tires change over time. Age degradation can lead to a sudden tire failure. To avoid tire failures caused by age degradation, Radar recommends tires (including spares) be removed from service and replaced 10 years after their date of the manufacture, regardless of tread depth or usable condition. The age of a tire can be determined by examining the DOT code on the tire sidewall, or by consulting a tire service professional.
