FORM RR01(RA/NA)

TIRE MOUNTING AND ROTATION SERVICE RECORD

DATE OF ROTATION	ODOMETER READING	RETAILER NAME & ADDRESS	AIR PRESSURE

- For maximum tire life, it is important to follow the recommended 5,000-6,000 Miles/ 8,000-10,000 Kilometer rotation interval.
- After each rotation, set the tire air pressure as recommended in the vehicle service manual.

						-						=					

Odometer at Wearout — Minus Odometer at Time of Installation — Equals Miles/Kilometers Received

NOTE: Tire owner must retain this form and ensure that the retailer completes the information above at the recommended service interval. To validate a limited warranty claim, the information on this page must be completed and attached to the Radar warranty claim form.
