

PATRIOT FREEDOM PROGRAM

Thank you for choosing Patriot. With proper care and maintenance, you will enjoy driving on your new Patriot replacement tires for a long time.

We want you to be 100% satisfied with your Patriot replacement SUV and light truck tires so they are backed by the PATRIOT FREEDOM PROGRAM. The Program includes the following benefits:

- **Workmanship and Material Limited Warranty**
- **Treadwear Limited Warranty**
- **Road Hazard Warranty**

WARRANTY ELIGIBILITY

Any new Patriot light truck tire bearing the Patriot brand name and DOT number that: i) is owned by the original purchaser ii) has remained mounted on the vehicle identified on the receipt of installation and; iii) is the correct size and load range for the vehicle according to the vehicle manufacturer's recommendations or according to the vehicle information placard, is eligible for warranty coverage, subject to the conditions and limitations set forth in this limited warranty. Products sold by unauthorized retailers are not eligible for warranty coverage from Patriot.

This warranty applies to tires purchased after November 1, 2021. Tires purchased before November 1, 2021 are subject to the previous published warranty.

WARRANTY PERIOD

The period of warranty coverage for eligible tires extends until: i) the original usable tread wears down to 2/32nds of an inch (1.6 mm), as evidenced by the built-in treadwear indicators in the tread grooves or a tire tread depth gauge; or ii) five (5) years from the date of retail purchase (proof of tire purchase required); or iii) six (6) years from the date of manufacture as per the DOT number, whichever occurs first.

WORKMANSHIP AND MATERIAL LIMITED WARRANTY

All Patriot brand tires are warranted against defects in workmanship and material. If, upon examination by an authorized Patriot retailer, it is discovered that an eligible tire is unserviceable as a result of workmanship or material related conditions, that the warranty period for the tire has not expired [five (5) years from date of purchase or six (6) years from date of manufacture as per DOT number], and that no EXCEPTIONS TO WARRANTY COVERAGE apply, the tire will be replaced at no charge (conditions apply) or at prorated cost (determined by reason of claim using mileage and/or tread depth) with an equivalent new Patriot by an authorized Patriot retailer. Eligibility for no charge replacement and details of prorated calculation can be found under section TIRE REPLACEMENT AND RELATED COSTS.

TREADWEAR LIMITED WARRANTY

Selected Patriot ranges offer treadwear warranty, which provides the consumer coverage from premature treadwear. These eligible tire ranges must be purchased in North America and used in non-fleet, non-commercial service and submitted as a set of four (4), evenly worn tires. Replacement (on a pro rata basis) with an equivalent new Patriot for treadwear warranty coverage will occur when an eligible

evenly worn tire wears down to a tread depth of 2/32nds of an inch (1.6 mm) at a mileage level less than what was warranted and no EXCEPTIONS TO THE WARRANTY COVERAGE apply. Tires which wear out evenly before delivering the guaranteed treadwear will be replaced on a pro rata basis only if the tires have been rotated and inspected by a participating Patriot retailer on a regular basis (see OWNERS OBLIGATIONS). Vehicles that come OE with split fitments (different sizes) on the front and rear axles and have been fitted with Patriot replacement tires are eligible for Patriot limited treadwear warranty. However, because tire rotation is not possible with vehicles with split fitments (different size on front and rear axles), the mileage warranty on the rear axle tires will be half of the miles/kilometers of the standard mileage warranty for that particular tire range. Non-EV or non-EV Compatible tires used on EVs (Electric Vehicles) will be eligible for 80% of the standard treadwear mileage warranty for that particular range.

For the most updated list of eligible ranges please visit <https://www.omni-united.com/patriot-us/limited-warranty>

ROAD HAZARD WARRANTY

Selected Patriot ranges offer a ROAD HAZARD WARRANTY to protect consumers against non-repairable damage caused by cut, snag, puncture, bruise or impact break. Typical road hazards are nails, glass, potholes and debris. The Road Hazard Warranty is offered to promote goodwill and is not a warranty that your tire will not fail or become unserviceable due to a Road Hazard. This warranty is a promise of replacement under the conditions specified below.

When an eligible tire has a road hazard condition during the first 2/32nds of an inch (1.6 mm) of treadwear or first 12 months from date of purchase, whichever comes first, the tire will be replaced with an equivalent* Patriot brand tire free of charge. To be eligible, you need to present i) the tire(s), ii) proof of purchase (original invoice) showing the date of purchase and that a set of four (4) tires of the same brand and pattern were purchased and installed on the vehicle at the same time. (If the vehicle has a mix of different brands and patterns, the claim will be rejected). You are responsible for payment of all applicable taxes, demounting, shipping, mounting and balancing charges set forth under this Coverage. You are also responsible for payment of local tire disposal fees and any parts or service regardless of mileage or months of service. This includes payment for tire rotation, alignment, towing, road service and valve stems.

*An "equivalent" new Patriot brand tire shall be either: i) the same range of tire; or ii) a tire of the same general construction and quality. The Limited Warranty covers tires of equal or lesser value. If owner accepts a higher priced tire, owner is responsible for covering any difference in price.

WARNINGS

To avoid property damage, personal injury or death:

- Always have your tires mounted and demounted by specially trained technicians.
- Always mount your tires on approved rims that meet TRA standards.
- Always have your tires rotated and inspected regularly.
- Always follow rules and recommendations in your vehicle's owner's manual.
- Always mount studded tires in sets of four (4).
- Never simultaneously mount studded and non-studded tires on a vehicle.
- Never mount mixed tire brands, product ranges and different speed rated tires on a vehicle.
- Always use correct air pressure recommended by vehicle manufacturer/TRA.
- Always use recommended tire size by the vehicle manufacturer.
- Never inflate beyond 40 PSI pressure to seat the beads.

TIRE AGING

All tires experience age degradation, a condition where the physical and chemical properties of tires change over time. Age degradation can lead to a sudden tire failure. To avoid tire failures caused by age degradation, Patriot recommends tires (including spares) be removed from service and replaced 10 years after their date of the manufacture, regardless of tread depth or usable condition. The age of a tire can be determined by examining the DOT code on the tire sidewall, or by consulting a tire service professional.
